

## PRESS RELEASE

Verberie, France,  
May, the 25<sup>th</sup> of 2015

Poclain Hydraulics has become the world leader in hydrostatic transmissions based on high performance cam-lobe radial-piston motors. This expertise has led to its expansion in fast growing niche markets, such as mobile machinery used in agriculture, construction, public works and material handling

Poclain Hydraulics will be exhibiting at the CTT exhibition in Moscow from 2 to 6 June 2015, stand 13 - 328.

Several innovations will be presented : the new high displacement motor - the MI250, as well as new options such as the symmetrical 2-displacement for the High Flow range, or the new control for the PM50.

Poclain Hydraulics is also taking this opportunity to promote flagship products such as the HIGH PERFORMANCE range or the CleanStart™ system.
